

WORLDWIDE TRACKERS

tacticaltrackingschool.com | Tactical Tracking Training — Law Enforcement, Military, Search & Rescue

CAPABILITY STATEMENT

COMPANY OVERVIEW

Worldwide Trackers has delivered tactical tracking training to law enforcement, military, and search and rescue personnel full-time since 1995 — over 30 years of continuous instruction worldwide. Courses are delivered on-site at client facilities using a Mobile Training Team model. Worldwide Trackers is led by Fernando Moreira, a master tracker with 40+ years of operational field experience and a three-generation tracking lineage.

LEAD INSTRUCTOR — FERNANDO MOREIRA

- Author, *Visual Mantracking for Law Enforcement and SAR* and *Shadow Disciple*
- Active operational tactical tracker — Washoe County Sheriff's Office
- Qualified expert witness, California and Nevada courts
- Founder of 8 Search and Rescue teams
- Instruction aligned with NTOA 2023 Tactical Response and Operations Standard (TROS Figure C-11 Tier 1 SWAT requirement)

INSTRUCTOR MODEL

Fernando Moreira is the lead instructor on every Worldwide Trackers course. For engagements that require additional field instructors — larger classes, multi-station field exercises, or extended programs — Worldwide Trackers draws on a network of qualified tracking instructors with backgrounds in three communities:

- Combat veterans with operational tracking experience
- Law enforcement professionals active or recently retired from tactical, investigative, or patrol tracking
- Search and Rescue professionals with rural, urban, and disaster-response field experience

Additional instructors are selected by Fernando, teach his methodology, and are engaged on a per-contract basis. Names are not published at their request: many hold active employment with their primary agencies and prefer not to be publicly associated with external training vendors.

DIFFERENTIATORS

- **Master-instructor delivery** — Fernando is in the field with your personnel on every course; not a classroom instructor, not a retired figurehead

- **Mounted Mantracking** — no other published tactical tracking school offers this course family
 - **Three-generation tracking lineage** — skills passed from Fernando's grandfather through his father to him, refined across decades of operational work
 - **Current field doctrine** — instruction reflects active operational practice, not legacy curriculum
